Koholint Island Map

The Koholint Island Map is obtainable by purchasing the Link's Awakening DLC or the Season Pass DLC for the game in the **3DS** version or by completing **The Armies of Ruin** on **NINTENDO SWITCH**. This map is rather different than the preceding maps, so I'll highlight the differences below:

- The main goal of this map is to awaken the Wind Fish and then defeat the final stage. In order to accomplish this, you must collect the eight Instruments of the Sirens and use them all on the Nightmares. There is an egg counter on the map that increments as you use the different instruments to help you keep track.
- Nightmares are spread across the map and prevent you from entering a stage until they are removed. They are removed by using any of the eight Instruments of the Sirens Item Cards. They will reappear after a period of time passes until the Wind Fish is awakened and then they will all be dispelled and no longer respawn.
- Each of the eight Instruments of the Sirens will cause a bonus effect to be applied to all locations on the map for three turns when used on a Nightmare. These bonuses are covered in the Item Card list below. Only one effect can be active at a time and they cannot be overwritten by another effect. Once the Wind Fish is awakened, the bonuses last for six turns instead of three and the Instruments can be used on any location rather than only on Nightmare squares.
